

2018 ORTHO AERIAL MAPS  
Showing Parcel Lines and Labels

**2018 Digital Orthophotographs**

The original photographs displayed here were taken in the spring of 2018. The 'best resolution' of these images is 0.5 feet per pixel.

Digital ortho photography consists of images processed by computer to remove the distortions caused by tilt of the aircraft and topographic relief in the landscape. These images are properly scaled and located in the state plane coordinate system (NAD83) thus giving them similar characteristics of a map.

*NOT A SURVEY. GENERAL REFERENCE SKETCH ONLY.  
NOT WARRANTED OR WARRANTED.*

 A legend located on the right side of the page. It includes a north arrow pointing upwards, a scale bar labeled '95 US Feet', and a list of symbols corresponding to map features:
 

- 2018 Digital Orthophotograph (represented by a small square icon)
- Municipal Name Municipal Border (represented by a grey line with a square symbol)
- Railroads (represented by a yellow line with cross-ticks)
- Public Roads (represented by a red line with a square symbol)
- Property Lines (represented by a grey line with a square symbol)
- Subdivision Lines (represented by an orange line with a square symbol)
- Condominiums Lines (represented by a pink line with a square symbol)
